

Blew

Nirvana

And if you wouldn't mind I would like to blow
And if you wouldn't mind I would like to blow
And if you wouldn't care I would like to leave
And if you wouldn't mind I would like to breathe Is there another reason for your stain
Could you believe who we knew was stress or strain?
Here is another word that rhymes with shame And if you wouldn't mind I would like to blow
And if you wouldn't mind I would like to lose
And if you wouldn't care I would like to leave
And if you wouldn't mind I would like to breathe Is there another reason for your stain
Could you believe who we knew was stress or strain?
Here is another word that rhymes with shame Is there another reason for your stain
Could you believe who we knew was stress or strain?
Here is another word that rhymes with shame
You could do anything
You could do anything
You could do anything
You could do anything
You could do anything
You could do anything
You could do anything
You could do anything
You could do anything
