

# Done to Me (feat. Wrekonize)

JL

You don't know what you've done to me  
You don't know what you've done  
You pulled the rug from under me  
I knew this day would come  
You don't know what you've done to me  
You don't know what you've done  
I see you everywhere I go  
There's nowhere left to run  
But you're done to me  
You're so done to me  
Look what you've done to me  
You're so done to me

Done

Yo

You can't see the bigger picture you posin' in  
A moment you feel like wasn't supposed to end  
Wasting your breath, talking about time to breathe  
All that I've done since then it's holdin' in  
Go fill up my cup from the well you poisonin'  
Got me lookin' dumb in front of my boys again  
I know that you take a L and you learn from it  
Still though the repercussions are permanent  
You were my purpose, topic of so many verses  
Had you in every video, guess I deserve this  
Read my face like emoji's, my emotion unavailable  
Tried bein' Superman, guess I wasn't capable  
No one to blame, I backed myself in a corner  
Back to the drawing board, I'm back to the loner  
Feel like a heart patient awaiting a donor  
Like a wondering lost puppy away from its owner  
Yo, we had to dead it but I forgot how to live without you  
Where was I headed?  
I forgot what I did without you  
Would have done more for it, don't get what it is about you  
I went to war for it, forgetting you is a battle  
Yeah, now it's over, hate to say it but it's true  
Consequences of it take a toll you on  
Did a number on me, what am I to do?  
I don't think you even have a clue  
But you're done to me  
You're so done to me  
Look what you've done to me

You're so done to me  
Done The damage is done and love is a broken habit  
Left empty handed but carrying so much baggage  
I feel like I couldn't hold conversation  
You and this concentrate what a combination  
Lookin' down from a billboard  
Starin' through me from a magazine  
Dying for, when I would kill for  
Was something I was not imagining  
Dream girl in my nightmares  
Hauntin' me in my daydreams  
Real life like all over  
A plus on exposure  
Couldn't hide if I wanted to  
Everywhere but in my bed  
Sick of me, need something new  
So please stay out of my head  
Used to call me baby than stopped calling altogether  
Way to much on my mind for you to be on it ever  
For the better bringin' it early into forever  
Teary-eyed thinking I wished that I never met her  
What, why, when, where, and how?  
Rebuild if I tear it down  
Stuck here if I stick around  
My friends are friends now  
Pressure on my offense  
Offsides no flag thrown  
Nothin' left, I'm convinced  
Everything we had gone  
Tell my family I'm sorry but i'm through  
Pack a bag and relocate I gotta move  
Only option, there ain't nothin' left to do  
Anything to get away from you You don't know what you've done to me  
You don't know what you've done  
You pulled the rug from under me  
I knew this day would come  
You don't know what you've done to me  
You don't know what you've done  
I see you everywhere I go  
There's nowhere left to run  
But you're done to me  
You're so done to me  
Look what you've done to me  
You're so done to me

Done
