

Hummingbird

Never Shout Never

I like you
Girl you don't got nothing to prove to me
I know that times have been rough for the both of us
But i'll pray
For a change You see this world has lots to offer
But in time we'll go talking if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much i can do
But fall for you
You know that i'm a wreck
And you know i cant breathe
At the edge of my seat with each word
As the months turn into years
Just know that i will wait here
For you
Cause i pray for a change You see this world has lots to offer
But in time we'll go talking if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much else i can do
But fall for you
(for you)
(for you)
(for you)
You see this world has lots to offer
But in time we'll go talking if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much else I can do
But fall for you
