

Paper Waves

The Gathering

Sun comes out - Wakes me up
Wanna sleep, need to sleepSaw your face - In my dreams
Fade away, far awayFade away, fade awayYou took your time - Passing by
Smiles and tears -No one caresHad you once -Now you're gone
Want you here, Need you near
Dreams and life it seems
Are crushing boundaries in me
Paper waves and seas - Ride the tide with meNeed to see - You're not far from me
I'm breaking time -Crossing linesI start to run -to catch the sun
from falling down - and burn this townI try to reach -You slip away
Can't you stay - Please just stay
Cold and warmth collide
Turning dark and light, inside
Nights we over fly - All logic gone awryTo know we might not meet again, I hardly bare to
look at you
In all this mess we don't complain, we kind of always knew
