

Perfect People

The Walls Group

This song is not for you, if you've never cried a river
Or had your heart broken in two
This song is not for you, if everyday you wake up
The skies are blue But this is for anyone, no matter how you pray
The pain won't let you get through
But you try and you try
Still they lie, they say that it's over for you If you're a miracle today and God has always made a
way
If you have food to eat, a place to sleep and you really can't complain
This song is for you
After everything you've been through
This song is for you
This song is not for you, if you love judging others
But you make the same mistakes
This song is not for you, if you think you're name is Jesus
And forget you're in need of grace But this is for anybody who needs a little mercy
Just to make it through the day
But they try and they try
Still they lie, they say that it's over for you If you're a miracle today and God has always made a
way
If you have food to eat, a place to sleep and you really can't complain
This song is for you
After everything you've been through
This song is for you All the perfect people, the perfect people
Perfect people, the perfect people
All the perfect people, the perfect people
Perfect people make some noise
But you're a miracle today, and God has always made a way
If you have food to eat, a place to sleep and you really can't complain If you're a miracle today
and God has always made a way
If you have food to eat, a place to sleep and you really can't complain
This song is for you
After everything you've been through
This song is for you For everything you've gone through, this song is just for you This song is
for you
After everything you've been through
This song is for you You are a miracle today...
