

# Hold Me

K.T. Oslin

Husband comes in and he said wife  
Turn down the radio turn off the TV listen to me  
Let me tell you about my day  
So she sits down and she listens and he begins to speak  
When I left here this morning I was  
bound and determined  
I was never gonna come back never, never I was running  
I was running from you darling I was running from my job  
I was running from the kid in me he never knows when to stop  
Got as far as the edge of town then I turned my car around  
And headed back to you  
Husband said wife what do you think, wife said it's very interesting  
Before we talk about your day let's talk about mine and she says  
When I left here this morning I  
was bound and determined  
I was never gonna come back never, never I was running  
I was running from you darling I was running from my job  
I was running from some wrinkles and nail cream well stop  
And got as far as the edge of town then I turned my car around  
And headed back to you  
Come here and hold me, tighter  
Tell me tomorrow will be brighter  
Kiss me, kiss me a little harder  
Don't kiss like we? re married kiss me like we're lovers  
We looked at each other and we started  
to grim  
This morning it was over this evening we'll start in the loving again  
Come here and love me, hold me tighter  
Won't you tell me tomorrow will be brighter  
Won't you kiss me, kiss me, kiss me a little harder  
Don't kiss like we? re married kiss me like we're lovers  
And hold me, hold me, hold me
