

I Want to Run

Mates of State

HEY, HEY Create with me a work of art
I'm on a high with you that could last all night I wanna run, I wanna run into the night
I wanna step into a dream with you
I wanna run, I wanna run into the night
I wanna step inside 'cause I know what we can do
Let's see what we can do Sittin here stuck in my head while the sun is just rising
Come on, it's late, and we know we're the lone survivors
I wanna run, I wanna run into the night
I wanna step into a dream with you
I wanna run, I wanna run into the night
I wanna step inside 'cause I know what we can do Let's see what we can do
Let's see what we can do You're all that I've got, when it's dark, I have a light
I finished the line, but my heart's on my own time
Don't you wanna push, don't you wanna fight, don't you ever talk to your mind?
You can make that come alive
Create with me a work of art
I'm on a high with you that could last all night
I wanna run, I wanna run into the night
I wanna step into a dream with you
I wanna run, I wanna run into the night
I wanna step inside 'cause I know what we can do Ooh ooh ooh
