

# Open Your Eyes

Andrew Belle

Open your eyes now  
Open your eyes now  
It's time to see  
If you can reach meOpen your eyes now  
Open your eyes now  
It's time to leave  
It's time to leave meOpen your eyes now  
Open your eyes now  
It's time to see  
If you still believe me  
Open your life now  
Open your life now  
I'll try to be  
All that you need me  
To beShe'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleedOpen your eyes now  
Open your eyes now  
Try to speak  
Like you can see meOpen your eyes now  
Open your eyes now  
I'll try to be  
Almost everything  
You need me to beShe'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleed  
All over meShe'll be a star now  
She'll be a scar nowShe'll be a star now  
She'll be a scar nowShe'll be a star now  
She'll be a scar nowShe'll be a star now  
She'll be a scar nowShe'll be a star now  
She'll be a scar now  
I will let her bleed  
All over meAll over me
