

# Stop!

## Against Me!

Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
    You've got to make a serious decision  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
You've got to make a serious decisionIt could be me up there in stage lights  
    It could be me on the TV in you living room  
    It could be me jet setting with my band all across the world  
    Appearing live in concert one night only, tickets sold out  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
You've got to make a serious decisionThere I am giving candid disclosure to press in interview  
    There I go on my way through the crowd up to the podium  
    On behalf of our fans we'd like to accept this award  
Smile for the camera boys, gold record in handStop! Take some time to think, figure out what's  
    important to you  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
    You've got to make a serious decisionAll of our lives in waiting  
    All of our lives traded for their roses and applause  
All of our lives dedicated to shoving it right back in their fucking face  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
Stop! Take some time to think, figure out what's important to you  
    You've got to make a serious decision  
I said you've got to make a serious decisionStop! Take some time to think
