

# Fix a Drink

Chris Janson

Well it's hotter than hell outside right now  
It's a 100 in the shade with the sun beatin' down  
Forecast callin' for some more of the same  
Well I can't fix that  
But I can fix a drink I turn on Fox News and then CNN  
But it's the same dang thing all over again  
The world's in the toilet and the market's in the tank  
Well I can't fix that No, but I can fix a drink, pour it on ice  
Mix it on up and get you feeling right  
I can get you buzzed, I can get you smilin'  
I can make you feel like you're sittin' on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
And tell me what you think  
Yeah, I can fix a drink  
You say you gotta broken phone and a broken heart  
Your boss is on your back and your truck won't start  
None of your friends wanna listen to Hank  
Well I can't fix that No, but I can fix a drink, pour it on ice  
Mix it on up and get you feeling right  
I can get you buzzed, I can get you smilin'  
I can make you feel like you're sittin' on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
And tell me what you think  
Yeah, I can fix a drink I don't know what's going on with you  
But if you've got some cheap whiskey and some Mountain Dew  
Malibu, Cuervo, Coke in a cup  
Brother I can hook you up  
I can fix a drink, pour it on ice  
Mix it on up and get you feeling right  
I can get you buzzed, I can get you smilin'  
I can make you feel like you're sittin' on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
And tell me what you think  
Yeah, I can fix a drink  
Yeah, I can fix a drink
