

# Firefly

Jimmy Needham

its tulips and its daisys  
your favorite flowers lately  
ya think that i aint listening  
but you know i do  
put your two lips on me baby  
my head starts getting dazy  
dont give me a flower what i want is you(chorus)  
it happened on the day you put your hand in mine  
you went up to my head just like a glass of wine  
girl you spark my attention like a firefly  
you make me happy to be alive  
you move into a room like  
a summerbreeze at noontime  
baby out of 9 i'd give you a 10  
your love is like an ocean  
surfin spray and motion  
baby i'm a diver and i love to swim(chorus)  
it happened on the day you put your hand in mine  
you went up to my head just like a glass of wine  
girl you spark my attention like a firefly  
you make me happy to me alivethese are just simple words of mine  
and though most of what i feel is hard to rhyme  
aint it good to know your boy gave it a try  
oh a try yeah... yeah  
it takes a thousand colors just to paint your eyes  
like saving grace  
you raise me up to paradise  
this aint opinion  
its consnsus from my heart  
and mind  
you make me happy to be  
alive oh-oh yeah yeah yeah
