Your Love Is All I Know

Chaka Khan

In my mind I only see your face And time will not erase What I feel for you, I feel for youIn my heart It was always you and me That's how I thought it would be Forever and everCHORUS: Where do I go What do I do After all that we've been through How do I turn around Just turn around and watch you go 'Cause baby your love is all I know The touch of your hand The warmth of your embrace I always had a place Here in your arms I felt so secure I didn't need anything moreCHORUS Tell me how Can you walk away and find somebody new, somebody new somebody new When I can't see myself
