## Tears of a Mandrake

## **Edguy**

Gaze at the leaving clairvoyant

Predicting invasions and pain

A child can see through the stranger

The Watcher's eye, the noble liarIt's time for the merchant, and his help for sale Blades to cut wicked flesh

On a merchantman he counts his money

Then he sails away

The sea he'll cruise is blood and fireOh father i can't see a lane

They make you a pawn in the game

For we are all deaf, dumb and blindAfter the storm when the magic has gone

Drown in the Tears Of A Mandrake

Pawn in the game, invisible chains

Try to move, you'll feel as they graze

After the storm when the magic has gone

Drown in the Tears Of A Mandrake

Fading away, the final decay

Try to move, break out from your chainsWhen you're off to the hall of the serpent

See the cynic who's counting his gold

While gun runners, priests and clairvoyants

Are dancing around the rising demonYou are taught to eat up all the crap they shit

Parading your nuts on a silver plate

Kill your brother by the blade they sell

For you don't unite

They reap your bondage sowing evilThere's no use to tell what I've seen

They know how to make you believe

Just what they want you to know

After the storm when the magic has gone

Drown in the Tears Of A Mandrake

Pawn in the game, invisible chains

Try to move, you'll feel as they grazeAfter the storm when the magic has gone

Drown in the Tears Of A Mandrake

Fading away, the final decay

Try to move, break out from your chainsTears of mandrake - yeahAfter the storm when the

magic has gone

Drown in the Tears Of A Mandrake

Pawn in the game, invisible chains

Try to move, you'll feel as they grazeAfter the storm when the magic has gone

Drown in the Tears Of A Mandrake

Fading away, the final decay

Try to move, break out from your chainAfter the storm when the magic has gone

Drown in the Tears Of A Mandrake

Pawn in the game, invisible chains

Try to move, you'll feel as they grazeAfter the storm when the magic has gone Drown in the Tears Of A Mandrake
Fading away, the final decay
Try to move, break out from your chain
