

Swim (Blackjoy Version) [feat. Chris James]

DJ Cam

Pictures from the past right here back in front of you
The shapes are the same but the colours are a different hue
The lines are on fire and the tones are exploding
Looking back down the track at the landscape unfolding

There's nobody watching you

Sink or swim

There's nobody watching you

Sink or swim

Pictures from the past right here back in front of you
The shapes have all changed and the colors are a different hue

The lines are on fire and the tones are exploding
Looking back down the track at the landscape unfolding

There's nobody watching you

Sink or swim

There's nobody watching you

Sink or swim

There's nobody watching you

Sink or swim

There's nobody watching you

Sink or swim

Just swim

Just swim
