My First Love (feat. KeKe Wyatt)

Avant

Silhouette of a perfect frame Shadows of your smile, will always remain (always remain) Beginners love, soon fades away ah baby We go on, I will alwayslong as I live (long as I live) you will be my first love (ah baby, you and only) long as i live (long as I live) you will be my first love and i choose you again. I'll keep an old candy-coated, valentine Memories of you, you when you were mine A tarnished ring, on a tarnished chain Times keep changing Come sun or rain Long as I live (long as I live) you will be my first love (and my only love) long as i live (long as I live) you will be my first love and i choose you again. See as long as i live long as i live I like it baby, sing to me oh you'll always be my first love you'll be mine and I'll choose you againA tarnished ring on a tarnished chain oh times keep changing, come sun or rain Long as I live (long as I live) you will be my first love (and my only love) long as i live (long as I live) you will be my first love and i choose you again.Long as i live baby you will always be (Avant) I'll always love you baby, my first love for the rest of my life you will always be
