

# NIGHTRIDER

## Arizona Zervas

Yeah

(Take-take it easy word to '94), ayyI come alive at nighttime, I think it's the right time  
Little bit of Hennessy, mix it with it with the white wine  
Kiss the sun goodbye, the stars are in your eyes  
We go up like balloons, now we riding through the sky  
We been up for two nights, shining in the moonlight  
Little bit of Hennessy, just to get the mood rightBaby, let's get higher, I can be the driver  
Straight up to the moon, you know I'm a nightriderI'm a nightrider, nightrider  
Nightrider, nightrider  
Nightrider, nightrider  
Nightrider, nightrider  
I'm on the road, yeah, whipping on my Harley (Whip)  
I'm going fast, girl, I wanna take a ride with you (You)  
Left your old man, baby, let me slide in (Slide)  
You got a past girl, you know I got some mileage too (Too)  
New whip got me floating like Aladdin (Float)  
True shit, shorty you could be my Jasmine (Whoa)  
Night shift, I've been working night shifts, yeah (Work)  
Flight risk when I twist the right wrist, yeahI'm a nightrider, nightrider  
Nightrider, nightrider  
Nightrider, nightrider  
Nightrider, nightriderBaby, let's get higher, I can be the driver  
Straight up to the moon, you know I'm a nightriderI'm a nightrider, nightrider (I'm a nightrider)  
Nightrider, nightrider  
Ride with me tonight  
Thought you was a rider, don't make me a liar  
Slide with me tonight  
I know where you reside, you can meet me outsideI'm a nightrider, nightrider (I'm a nightrider)  
Nightrider, nightrider (I'm a nightrider)  
Nightrider, nightrider (I'm a nightrider)  
Nightrider, nightriderBaby, let's get higher (Higher), I can be the driver (Driver)  
Straight up to the moon, you know I'm a nightriderI'm a nightrider, nightrider (I'm a nightrider)  
Nightrider, nightrider  
Nightrider, I'm a nightrider  
Nightrider, I'm a nightrider, yeah
