Back on My Feet Again

John Waite

I was so lonely until I met you Told myself I'd get by without love Drownin' my sorrows Avoiding tomorrows Kind of felt that I just had enough You light up my face with your jokes and your smiles And the way that you came here tonight Don't know what you got But I'm sure glad I found you Could be wrong but it sure feels right And here I am I'm back on my feet again Here I am I'm back on my feet again Surprised at myself For the way that I feel So happy that you're Here with me Some women I've known They've left me with nothing But I guess that was just meant to be And here I am I'm back on my feet again Here I am I'm back on my feet again I was down for the count I was down I was beat I was cryin' I was cornered and hurt I was hidin' my face Sittin' there cryin' I was so lonely until I met you Told myself I'd get by without love Drownin' my sorrows Avoiding tomorrows Kind of felt that I just had enough And here I am I'm back on my feet again Here I am I'm back on my feet again.

Yes here I am

I'm back on my feet again Here I am I'm back on my feet again
