

# Faster

## Slum Village

Hold your breath  
Yeah yeah  
(YAH)  
Woahh ohh ohhh ohhh oh  
Yeah  
Im feelin like im whippin in a Porsche girl  
You all up in my thoughts  
Its simple & reinforced  
Love that love that that love  
So much that we should back up  
You never feel it til it happens  
Then it happens  
Cause i guaranteed your life is like math subtract it from your past  
& the math you think its like fast  
Talladega honey moon up in vegas sharin paper  
Cross my fingers hopin we dont break up  
Now we made it through the basics  
We seen it in an instant  
Girl id love to see your ass naked  
We should stay connected  
Every second record is a blessin  
Girl you got me smilin so F it  
I take it there i take it as a blessin  
I use it as a weapon  
I rhyme they should use it as a reference  
When people stay stick together we forever its embedded  
& everytime we go somewhere we always leave a presence, the essence  
Hold your breath  
(dont let this) run away  
(its moving) faster (yeah) faster (yeah) faster  
(whoa whoa whoa oh)  
Dont let go (dont let go)  
Night & day  
(its moving) faster(faster) faster (faster) fasterFrom mix to the intense  
The second i hope you smell the incense  
Entice the moment of innocence  
This how we came together  
For better bond suited on how to break hearts  
Separated then recluded  
Desire was a overwhelming conclusion  
Those things of passion created a guard for the delusion  
It makes sense

In a mutual choice the muse & states of simple bliss forever we still here  
& in a intense climax the moment a miss & the moment of passion is intense enough to  
commence

At last we in the depths of orgasm  
The experience brought us this far  
Now we out fast

Take the time when expand emotions recommence to the intense  
The second is innocence

Guess the time when expand emotions to the 8 tenths  
A second of innocence, innocence Hold your breath

(dont let this) run away

(its moving) faster faster faster

(whoa whoa whoa whoa)

Dont let go (dont let go)

Night & day

(its moving) faster faster faster Yeah its like you million miles away  
& i cant take that

Lets get that crib, sittin where that, hate that

You need that, feelin that young girls dream of the italy

Gotta lay her boat up streamlove

That paris in the springtime

Wakiki when i, when im lost in your eyes i see me in ya

It feels brand new

Just listen, ya mans true

What u wishin i cant do

Its my mission,

I plan to in addition stay thru the good the bad

Whether the rain or shine

Your remain is mine

Body & brains, ya fine

Yeah you all that & then some

What a perfect place to begin from

& baby if you let yourself go

Maybe we could go

Tell you this is all i know

& we could do dinner, dance slow,

A broad way show

Tell you this is all i know. Hold your breath

(dont let this) run away

(its moving) faster faster faster

Dont let go (dont let go)

Night & day

(its moving) faster faster faster Its moving (faster) moving (faster) moving (faster)

Its moving (faster) moving (faster) moving (faster)
