## U.O.

Your the kind that makes me wanna get no sleep tonight  
And I can't describe the feeling that I'm left with everytime  
'Cause I don't know what you're thinking and maybe I'm mistaken Weren't you into me? Weren't  
you into me?

I told you that my time were tied to somewhere inbetween  
The blurry lines of wrong and right, the different harmony  
And I think you kinda like it, but you just can't decide, yeah  
Are you into me? Are you into me, into me? Everywhere I go I just can't help it  
It's spinning in my mind like a broken record

'Cause I can't get you outta my head  
Outta my head, just can't get you outta  
I can't get you outta my head  
Outta my head, just can't get you outta  
Just can't get you outta  
Just can't get you outta  
Everywhere I go I just can't help it  
'Cause I can't get you outta my head  
Outta my head, just can't get you outta I wake up every morning want you laying next to me  
So I'm picking up my phone to see if you've been texting me  
Yeah, we had a little something, It might be just a hunch

I think you're into me, yeah, you're into me, into me Everywhere I go I just can't help it  
It's spinning in my mind like a broken record  
'Cause I can't get you outta my head  
Outta my head, just can't get you outta  
I can't get you outta my head  
Outta my head, just can't get you outta  
Just can't get you outta  
Just can't get you outta  
Everywhere I go I just can't help it  
'Cause I can't get you outta my head

Outta my head, just can't get you outta Just can't get you outta  
Just can't get you outta Just can't get you outta  
Just can't get you outta  
Everywhere I go I just can't help it  
'Cause I can't get you outta my head  
Outta my head, just can't get you outta
