

# When It Hurts

## Avant

Can you take me telling you the truth  
When I know the situation is shadiest  
But my girl, will you...  
Believe when I say I knew that you be tripping  
So I slept out in my ride in the driveway  
So before we get into the things that we shouldn't do  
I'm a need your undivided attention  
Cause it's fantasies and reality  
Baby which one are we living in, oh  
When it hurts, will we still be  
The same two lovers  
All over each other  
When it hurts, will we still see  
What we got together  
Promise that we'll never  
Never ever be  
Temporary (Not Another)  
Ordinary (Uh uh)  
We should change people's definition of love  
So forget what you heard  
The only way that this will work  
Is if you love me when it hurts  
Can you love when it hurts  
I don't wanna blend in  
With every other relationship that be falling in and out girl (Not us)  
I knew that I tripped  
Cause every time we argued  
I think about having someone on the side girl  
So before we get into the things that we shouldn't  
do  
I'm a need your undivided attention  
Cause it's fantasies and reality  
Baby which one are we living in, oh  
When it hurts, will we still be  
The same two lovers  
All over each other  
When it hurts, will we still see  
What we got together  
Promise that we'll never  
Never ever be  
Temporary (Not Another)  
Ordinary (Nuh uh)  
We should change people's definition of love  
So forget what you heard  
The only way that this will work

You gotta love me when it hurtsBabygirl we gotta face it  
There'll be times that we let each other down  
And on the days that you ain't feeling me  
Will you be able to stick around  
Cause anything worth having is worth fighting for  
If we really want this thing to work  
We gotta go to war  
Girl, I'm in this thing  
I mean we're in this thing  
But through the tears will you still be hereWhen it hurts, will we still be  
The same two lovers  
All over each other  
When it hurts, will we still see  
What we got together  
Promise that we'll never  
Never ever be  
Temporary (Not Another)  
Ordinary (Nuh uh)  
I wanna change people's definition of love  
So forget what you heard  
Cause the only way that this will work  
Is if you love me when it hurts (When it hurts)When it hurts (When it hurts)  
Do you love me when it hurts  
Girl when it hurts (When it hurts)  
When it hurts (When it hurts)  
Do you love me when it hurts  
When it hurts (When it hurts)  
When it hurts (When it hurts)  
Do you love me when it hurts  
When it hurts (When it hurts)  
When it hurts (When it hurts)  
When it hurts (When it hurts)  
Do you love me when it hurts
