Fly like a fairy like my name Juandissimo  
Not necessary to call paramedics  
My jewelry been sick with a cold since a year ago  
Spin on my nuts, 6-1-9 like Mysterio  
She said my nuts taste like honey, no Cheerio  
It be no biggie, though, fuck European ho  
How does she greet you, though? She be like, "Cheerio!"  
Water!  
It's how the fabric be when you look at this material  
Head your bitch gave me, I would describe it as remedial  
Just got up thinkin' 'bout aliens that ate some cereal  
Ooh, what'd you do next?  
Fuck on your auntie, then put my thumb right on her hairy hole  
Will never stop until my voice is on every stereo  
Diamonds that's on me look nice against this nice material
