

# Avalon (feat. Myles Kennedy & The Conspirators)

## Slash

Through the miles  
I cannot escape  
My fate I know will come in time  
With my back to the wind  
I cheat it again  
With a smile Forged in blood  
Billowing up  
The truth I cannot speak  
But I made it back  
One last time Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone  
Tales untold  
Never to know  
Unspeakable until the end  
All these mysteries  
I'll never speak of again But my love  
I hope you believe  
Now I'm gonna give you every part of me  
I am home Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone But please keep holding on  
Stay  
Tonight  
I need your love  
Don't  
Say  
Goodbye  
My sweet Avalon Avalon  
It's been way too long  
I can see in your eyes  
The fire is all but gone My sweet Avalon  
It's been way too long Avalon  
It's been way too long Avalon
