

Not of This God

Slayer

I wake each day
To propaganda written to persuade
Complacency, conformity
Relentless madness they regurgitate
So save your breath
You can't coerce the strong with verbal warfare
Defending, bludgeoning
Succumb to Christ or they will watch you fucking burn
These apocalyptic predators must die
Every one till none are left alive
I'll eradicate the weak within this war
Cause I'm the fuckin' weapon, I'm not
Not of this god
[Lead - Hanneman]Replicate
Like a virus that infects with disease
The beckoning pestering
Don't preach to me with your blasphemy
Exterminate
The bottom dweller on your fear they prey
There's symmetry in anarchy
Believe the lies or they will watch you fuckin' burn
These apocalyptic predators must die
Every one till none are left alive
I'll eradicate the weak within this war
Cause I'm the fuckin' weapon, I'm not
Not of this god
False god, sorcerer, free thought torturer
Embedded in the mind of the masses
Outcast, conjurer, spineless provocateur
Engulfed in narcissistic madness
No need to feel so hollow
A promise of no sorrow
You call him the messiah
I see a deviant pariah [Lead - King] Holy water empty threat the holy cross has no effect
I piss on any object of virtue
Crucifix and rosaries a world of insecurities
Keep waiting for your soul to be rescued
You'll see no bright tomorrow
A promise of more sorrow
You call him the messiah
I see a reckless faction based on mental slavery [Lead - King] You are the tainted, I am the pure
You are the sickness, I am the cure
A toxic threat on all your nonsense I feed
I'll be the one to bring Christ to his knees

Crucified then ridiculed again
A target for all time until the end
I'll expose the total inconsistencies
And wallow in my heresy 'cause I am the fucking weapon
Attacker of their ideology
Intoxicate with rationality These apocalyptic predators must die
Cause I'm the fuckin' weapon, I'm not
Not of this god
