

# Not of This God

## Slayer

I wake each day  
To propaganda written to persuade  
Complacency, conformity  
Relentless madness they regurgitate  
So save your breath  
You can't coerce the strong with verbal warfare  
Defending, bludgeoning  
Succumb to Christ or they will watch you fucking burn  
These apocalyptic predators must die  
Every one till none are left alive  
I'll eradicate the weak within this war  
Cause I'm the fuckin' weapon, I'm not  
Not of this god  
[Lead - Hanneman]Replicate  
Like a virus that infects with disease  
The beckoning pestering  
Don't preach to me with your blasphemy  
Exterminate  
The bottom dweller on your fear they prey  
There's symmetry in anarchy  
Believe the lies or they will watch you fuckin' burn  
These apocalyptic predators must die  
Every one till none are left alive  
I'll eradicate the weak within this war  
Cause I'm the fuckin' weapon, I'm not  
Not of this god  
False god, sorcerer, free thought torturer  
Embedded in the mind of the masses  
Outcast, conjurer, spineless provocateur  
Engulfed in narcissistic madness  
No need to feel so hollow  
A promise of no sorrow  
You call him the messiah  
I see a deviant pariah [Lead - King] Holy water empty threat the holy cross has no effect  
I piss on any object of virtue  
Crucifix and rosaries a world of insecurities  
Keep waiting for your soul to be rescued  
You'll see no bright tomorrow  
A promise of more sorrow  
You call him the messiah  
I see a reckless faction based on mental slavery [Lead - King] You are the tainted, I am the pure  
You are the sickness, I am the cure  
A toxic threat on all your nonsense I feed  
I'll be the one to bring Christ to his knees

Crucified then ridiculed again  
A target for all time until the end  
I'll expose the total inconsistencies  
And wallow in my heresy 'cause I am the fucking weapon  
Attacker of their ideology  
Intoxicate with rationality These apocalyptic predators must die  
Cause I'm the fuckin' weapon, I'm not  
Not of this god
