Not of This God

Slayer

I wake each day
To propaganda written to persuade
Complacency, conformity
Relentless madness they regurgitate
So save your breath

You can't coerce the strong with verbal warfare

Defending, bludgeoning

Succumb to Christ or they will watch you fucking burnThese apocalyptic predators must die

Every one till none are left alive

I'll eradicate the weak within this war

Cause I'm the fuckin' weapon, I'm not

Not of this god

[Lead - Hanneman]Replicate

Like a virus that infects with disease

The beckoning pestering

Don't preach to me with your blasphemy

Exterminate

The bottom dweller on your fear they prey

There's symmetry in anarchy

Believe the lies or they will watch you fuckin' burnThese apocalyptic predators must die

Every one till none are left alive

I'll eradicate the weak within this war

Cause I'm the fuckin' weapon, I'm not

Not of this god

False god, sorcerer, free thought torturer

Embedded in the mind of the masses

Outcast, conjurer, spineless provocateur

Engulfed in narcissistic madness

No need to feel so hollow

A promise of no sorrow

You call him the messiah

I see a deviant pariah[Lead - King]Holy water empty threat the holy cross has no effect

I piss on any object of virtue

Crucifix and rosaries a world of insecurities

Keep waiting for your soul to be rescued

You'll see no bright tomorrow

A promise of more sorrow

You call him the messiah

I see a reckless faction based on mental slavery[Lead - King]You are the tainted, I am the pure

You are the sickness, I am the cure

A toxic threat on all your nonsense I feed

I'll be the one to bring Christ to his knees

Crucified then ridiculed again
A target for all time until the end
I'll expose the total inconsistencies
And wallow in my heresy 'cause I am the fucking weapon
Attacker of their ideology
Intoxicate with rationalityThese apocalyptic predators must die
Cause I'm the fuckin' weapon, I'm not
Not of this god
