

Death of Me

Daughtry

[Verse 1]

Like a scream inside, the one you just can't hide
Sounds so deafening, you can't hear yourself think
As real as real can it

Keeping my heart in check, from feeling anything but my own apathy
Again, again[Post-Chorus]

It's creeping up on me
Making it harder to breathe

[Chorus]

We're all under pressure
Can't stand the weather
For the worst and not for the better
Please, this ain't the way to live

Something's got to give
We forgive but don't forget it, no
Another day, another battle
We all have a cage to rattle

This just might be the death of me
Might be the death of me[Verse 2]

It's reached a fever pitch
I'm living proof of it

I find it hard to cope, without a thread of hope

Blood is thicker than water
But love is even stronger
Hold out a little longer

Until we found ourselves

Again, again

[Post-Chorus]

It's creeping up on me
Making it harder to breathe[Chorus]

We're all under pressure
Can't stand the weather
For the worst and not for the better
Please, this ain't the way to live

Something's got to give
We forgive but don't forget it, no
Another day, another battle
We all have a cage to rattle

This just might be the death of me
Might be the death of me

Another day, another battle
We all have a cage to rattle

This just might be the death of me
Might be the death of me[Partial Verse 1]
Like a scream inside, the one you just can't hide
Sounds so defying, you can't hear yourself think
As real as real can it
Keeping my heart in check from feeling anything
Making it harder to breathe[Chorus]
We're all under pressure
Can't stand the weather
For the worst and not for the better
Please, this ain't the way to live
Something's got to give
We forgive but don't forget it, no
Another day, another battle
We all have a cage to rattle
This just might be the death of me
Might be the death of me
Another day, another battle
We all have a cage to rattle
This just might be
Yeah, this might be the death of me
