

Healing

Rebelution

I don't wanna lose control
But I know I won't be long
Life is good, remember that
Even long after I'm gone
Feeling like you feel
Deep into your soul
Take this from me
Sending you some healing energy
Play a tune, your favorite song
Find some ground to sing along
Take your time, remember that
Find some ease to keep you on
Feeling like you feel
Deep into your soul
Take this from me
Sending you some healing energy
Feeling like you feel
Deep into your soul
Take this from me
Sending you some healing energy
