

# Picture This

## Big Time Rush

Ha ha ha

Ohh Picture this, first kiss in the moonlight  
Slow dance, cover band playing all night  
Meant to be, cool breeze feeling so right

Picture this, picture this

Picture this, holding hands on the boardwalk  
Perfect date, out late, making small talk  
Arcade, playing games you can win it all

Picture this, picture this

When you look into your future

Who's there standing

With you when you close your eyes (hey hey)

Do you see what I see

You and me, it's like a movie scene

That's the way you know it should be

The two of us together, girl can you picture this

Whoa whoa whoa

Girl can you picture this

Whoa whoa whoa

The two of us together

Whoa whoa whoa

Girl can you picture this

Whoa whoa whoa

Girl can you picture this (oh oh oh) Top down, ride around all day long

Watching you rockin' out to your favorite song

Fall asleep on the beach with our shades on

Picture this, (picture this) picture this (hey hey)

When you look into your future

Who's there standing

With you when you close your eyes (oh hey hey)

Do you see what I see

You and me, it's like a movie scene

That's the way you know it should be

The two of us together, girl can you picture this

Whoa whoa whoa

Girl can you picture this

Whoa whoa whoa

The two of us together

Whoa whoa whoa

Girl can you picture this

Whoa whoa whoa

Girl can you picture this When you look into your future

Who's there standing  
With you when you close your eyes (oh oh oh) Do you see what I see  
You and me, it's like a movie scene  
That's the way you know it should be  
The two of us together, girl can you picture this  
Whoa whoa whoa  
Girl can you picture this  
Whoa whoa whoa  
The two of us together  
Whoa whoa whoa  
Girl can you picture this  
Whoa whoa whoa  
Girl can you picture this
