

Dance Without You

Skylar Grey

So serious all the time
I feel restrained, I feel confined
I cannot take your whispering
Your whispering I wanna dance without you
For once just let me lose myself
I wanna dance without you
For once just let me lose myself
For once let me lose myself
So insecure, so uptight
I break my neck to be polite
I cannot take your whispering
Your whispering I wanna dance without you
For once just let me lose myself
I wanna dance without you
For once just let me lose myself
For once let me lose myself How can I make history with your choreography?
Take your hands off me
Take your hands off of me
Before I suffocate
I wanna dance without you
For once just let me lose myself
I wanna dance without you
For once just let me lose myself
For once let me lose myself .
