

Says She Loves Me

Aer

She always says she loves me when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you
She always says she loves me
when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you
When she's drunk she calls me
a punk,
She blow my phone up, she don't know what's up,
When she drink that Jack
She won't call back, and when she off that rum,
She acts so dumb,
She tells me grow up! I say you know what?
She won't let me finish, she starts to go nuts
Stop throwing stuff, time to own up,
I'm so done baby I'm so done,
All I needa do is turn my back, and she'll be gone for good,
Finished packing my bags, going where I know I should,
It's only right for me to move on to
what's next,
but when she texts me with those three words it gets me like,
She always says she loves me
when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you,
She always says she loves me
when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you
She's gotta quit showing off to
all of her friends,
And go pick someone else who can handle her shit,
I'm so sick of this and I can't pretend,
But I'll be stuck with this girl like wet cement
I don't want her following in my footsteps,
But I think my shadow needs it,
Despite her good side, and some good sex,
I'd rather go through amnesia,
Like forget all about it,
No reason to always get so dramatic,
I'm more manual, she automatic,
Oh,
Tryna get rid of her static,
I got smacked last night, it makes sense tonight,

Well it's time to tell her I've had it cause
She always says she loves me when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you,
She always says she loves me
when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you,
Take my hand,
Let's start new,
I wasn't planning on it but I'm liking you,
And we just met,
But I get you,
You seem like the type that got something to prove
Come on and dance,
Let's see you move,
This ain't the first time that I noticed you,
Take off those heels,
Let's keep um new,
Now bring that body closer for a few
She always says she loves me when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you
She always says she loves me
when we're drinking
Won't admit it but it's true,
I think I've had enough of this one,
So baby what's your name where you from what's good with you
