

# Stick That in Your Country Song

Eric Church

Take me on up to Detroit city  
Jails are full, the factories empty  
Mommamas crying, young boys dying  
Under that red white and blue still flying  
Drop me off in Baltimore  
Where every other window's got a plywood board  
Where dreams become drugs and guns  
The only way out is to shoot or run  
Stick that in your country song, yeah  
Take that one to number one, yeah  
And get the whole world singing along, yeah  
Stick that in your country song, yeah  
Sing about the man coming back from war  
23 going on 54  
He lost a friend, his sight, his hands  
Baby girl he'll never see again  
Stick that in your country song, yeah  
Take that one to number one, yeah  
And get the whole world singing along, man  
Stick that in your country song, yeah  
Light the arrow, pull the bow  
Shoot that fire right through my soul  
Hit my pride, fist up high  
I wanna feel the rush, I wanna feel alive  
C'mon, I wanna pound the dash  
Stomp the gas, drive too fast  
Rock me hard, stop my heart  
And blow the speakers right out of this car  
Stick that in your country song, yeah  
Take that one to number one, yeah  
And get the whole world singing along, man  
Stick that in your country song, yeah  
Stick that in your country song  
Take that one to number one  
I could sing this all night long, yeah  
Stick that in your country song, yeah  
Gimme one about the teacher who's  
Trying to change a life or two  
She'll be rocking out all night with you  
Tomorrow she'll back in a red brick school  
Where kids are climbing off the walls  
It's scary walking down the halls  
She's underpaid, she's overworked  
Come on man, shout one out to her  
Stick that in your country song  
Take that one to number one, yeah  
And get the whole world singing along  
Stick that in your country song  
Stick that in your country song

Take that one to number one  
And get the whole world singing along, man  
Stick that in your country song, yeahStick that in your country song, yeah  
And get the whole world singing along (singing along)  
Stick that in your country song
