

Is It My Body

Alice Cooper

What the hell have I got
That makes you want to love me
Is it my body
Or someone I might be
Or somethin' inside me You better tell me
Tell me
It's really up to you
Have you got the time to find out
Who I really am
What does it take
To get inside of your mind
Give me a break
And take a chance for the very first time You better tell me
Tell me
It's really up to you
Have you got the time to find out
Who I really am What have I got
That makes you want to love me
Now is it my body
Or someone I might be
Or somethin' inside me
You better tell me
Tell me
It's really up to you
Have you got the time to find out
Who I really am
