

Are You Around (feat. Polyester the Saint)

Michael Christmas

It's going down, going down, going down

Are you around? (Are you around?)

Are you around? (Are you around?)

It's going down, going down, going down

Are you around? (Are you around?)

Are you around? (Are you around?)

Are you around?

Late Friday, mid 80s, some little ladies and some big ladies

There's foam dropping out they mouth from the 40 like it's rabies

They twerking in the whip on the way but it was probably all shakin'

But it's crackin'

Mars pulled up like what's happenin'

Girls at this party looking bat shit

Crazy how they gassin'

But I know that I ain't finna tap shit

Girls don't care about this rap shit

Least until you absent

Party in 200 and it's passin'

Think somebody offered me some Absinthe

Still I think for nights like these it's harder to forget

Cause that moment when you laughing with your niggas eating after hour shit

Shoes look not the same color that you bought 'em

Faded in the summer I'm a hermit in the autumn

And every girl I know don't know if I'm drunk I'm finna call them

This how it's supposed to go no problem

It's going down, going down, going down

Are you around? (Are you around?)

Are you around? (Are you around?)

It's going down, going down, going down

Are you around? (Are you around?)

Are you around? (Are you around?)

Are you around?

They playing Based God, Kief, Future, Stizzy

Shoutout to the money from the drugs, Biggie

Police come we running quickly

Wish this girl give me a quickie

Mismatched socks white T's I ain't picky

L smell stuck on me like a hicky

If Mom's up then she probably gonna kill me

Broke a whole vase smiling hard like bill me

Silly soul train line in the sideline

Everybody crib is mi casa

Can't find a ride, sleeping on the floor in my boxers
Making hella waffles manana
This that shit, everybody up for a grip
And at the end of the night sun lit
And we had a good time, finna take the bus to the crib
Take a nap and we doing it again
It's going down, going down, going down
Are you around? (Are you around?)
Are you around? (Are you around?)
It's going down, going down, going down
Are you around? (Are you around?)
Are you around? (Are you around?)
Are you around?
Are you around? (Are you around? Are you around?)
Are you around?
Are you around? (Are you around? Are you around?)
Are you around?
