

# What You Wanted

## OneRepublic

I'll find the places where you hide  
I'll be the dawn on your worst night  
The only thing left in your life  
Yeah I would kill for you, that's right  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
I'll put your poison in my veins  
They say the best love is insane, yeah  
I'll light your fire till my last day  
I'll let your fields burn around me, around me  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
I'll run now, cause this time  
Oh, my love is true  
Tell me, something I wouldn't do  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted  
If that's what you wanted
