

# Big Difference

## Tokyo Police Club

The quiet kid has come to stay  
what did he say?  
he says I'm lonely, says I'm lonely I'll tell you everything I know  
what do you know?  
he says I'm hopeless, says I'm hopeless  
And that's why I can't send you christmas cards  
It's why I had to keep you in the dark  
Less big words and more exclamation marks  
The little king is locked away (locked away)  
swallow the key  
says it's alright, but not sorry  
I'll tell you everything I saw  
(what did you see)?  
a hundred and one  
he says it's alright, but I know what I've done  
And that's why I can't send you christmas cards  
It's why I had to keep you in the dark  
Less big words and so... Charmed but Destroyed  
Opens up the window  
Bored and Overwhelmed  
I was overwhelmed  
But that's the best part  
That's the best part 'Cause I've been taking your advice  
With a speak and spell  
I could get to know you better  
And never know you well  
And that's why I can't send you christmas cards  
It's why I had to keep you in the dark  
Less big words and so... Charmed but Destroyed  
Opens up the window  
Bored and Overwhelmed  
I was overwhelmed  
But that's the best part  
That's the best part
