

# Lightning (feat. The Kite String Tangle)

## Bag Raiders

So long, I've been walking this world alone  
Never thought I needed anyone like you  
But now it's too late, I'm lost I can't be saved  
And I'm so far gone from anything I knew  
Cos you struck me down like lightning in my mind  
Once in my life like lightning, just this time  
And when the rain comes pouring in your life  
We'll light it up like lightning, just this time  
Don't say that you're drifting away  
Like a lifeboat on the horizon out at sea  
And though our days are long and it feels so far from home  
You should stay right here in this perfect storm with me  
Cos you struck me down like lightning in my mind  
Once in my life like lightning, just this time  
And when the rain comes pouring in your life  
We'll light it up like lightning, just this time
