

No No No

Beirut

Don't know the first thing about who you are
My heart is waiting, taken from the star
If we don't go now, we won't get very far
Don't know the first thing about who you are
Don't know the first thing about who you are
My heart is waiting, taken from the star
If we don't go now, we won't get very far
Don't know the first thing about who you are
