

# Keep Me in the Dark

## Arcadia

When the evening's sunlight fingers  
Stretch across the floor  
Cover up your eyes with feathers  
Softly close the door  
Take me in your heavy lips  
Take me where the shadows lie  
I need your blind full secrets  
Hunting fast and loose  
The lacy intrigue of this weekend  
Should not be abused You could take me where you want  
Could you take me all the time  
Away, yeah  
Wait a little longer  
Don't go to far  
I wouldn't like  
I wouldn't like you keeping me in the dark Tender is the truce I'm tasting  
Watching you dictate  
Heady nights of sleepless wasting  
A face i can't escape  
We could wave the world goodbye  
To all of the boys, cheerio Away, yeah  
Wait a little longer  
Don't go to far  
I wouldn't like  
I wouldn't like you keeping me in the dark  
Away, yeah  
Wait a little longer  
Don't go to far  
I wouldn't like  
I wouldn't like you keeping me in the dark Help me now I'm slipping deeper  
Tell me what to say  
When without words you call me closer  
Each time you turn away  
Something inside you cries  
But is it something I'll never find Away, yeah  
Wait a little longer  
Don't go to far  
I wouldn't like  
I wouldn't like you keeping me in the dark Away, yeah  
Wait a little longer  
Before we go to far  
I wouldn't like

I wouldn't like to think you  
Were keeping me in the dark
