

What Does Christmas Mean? (feat. The Shindellas)

Louis York & The Shindellas

It's December again,
There's a chill in the air
I should be out with friends
But I'm asking myself:
Tell me what does Christmas mean without you? Kids are making the lists
I hear laughter in the distance
And I must admit
Only one thing is missing
Tell me what does Christmas mean without you?
I know you can't be here this year
But understand - when you're gone I feel dodgy
And in my heart I need to know
Will Santa please bring you home! There'll be snow on the ground
There'll be lights in the trees
There'll be love all around
But if you're not with me
Tell me what does Christmas mean
Tell me what does Christmas mean
Tell me what does Christmas mean without you? I know you can't be here this year
But understand - when you're gone I feel dodgy
And in my heart I need to know
Will Santa please bring you home!
There'll be snow on the ground
There'll be lights in the trees
There'll be love all around
But if you're not with me
Tell me what does Christmas mean
Tell me what does Christmas mean
Tell me what does Christmas mean without you?
