

Problematic (feat. Snoop Dogg)

Ricky Dillon

Bobby J, Ricky Dillon

Snoop Dogg, ohGot the hustle on the gun I'm about to work it
Looking at you in my ride, yeah, you endorse it
Make some noise, this is my night, got you on the guest list
Acting up with me tonight, you'll never forget thisGet it? got it? good, I'mma, I'mma make it
possible

Do it like you should, we gon', we gon' be unstoppable

Yeah it's possible, but this split shit's impossible

(Get it?) get it? (got it?) got it? (get it? got it? good)

Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magicGot my crew mobbing deep

Go down and stay true

I'm not looking for the heat

Flashing lights are red blue

Spitting lines, flow to the beat

That next-level breakthrough

See you at my meet and greet

When I drop that debut

Get it? got it? good, I'mma, I'mma make it possible

Do it like you should, we gon', we gon' be unstoppable

Yeah it's possible, but this split shit's impossible

(Get it?) get it? (got it?) got it? (get it? got it? good)Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magic

Be the problem, call me problematic

Work it out, just like magicIt's just so tragic, just like magic

Tragic, tragic, magic, problematic

One lonely kid on the block tryna be

Cool as a cat be, problematic boy he is

Ain't nobody stopping cause he really don't listen

On the mission doing what he want, till he get in trouble

Now he's on the bad side, problematic slowing down

Better pay attention cause they ain't tryna play around

Lay him down
Be the problem, call me problematic
Work it out, just like magic
Be the problem, call me problematic
Work it out, just like magic
Be the problem, call me problematic
Work it out, just like magic
Be the problem, call me problematic
Work it out, just like magic
Break bread or fake dead
So problematic, ya dig?
Oh, oh
