

Only You

Anderson East

Baby I'm burning, yearning inside
And I can't get you off of my mind.
I'm going crazy, baby it's true.
I want you, oh, and only you will do.
Only you, only you, baby I want you, only you will do.
I'm dying without you near.
Baby, I can't live without you dear.
I'm going crazy, baby it's true.
I want you oh, and only you will do.
Only you, only you, baby I want you, only you will do.
Cause I've been waiting for so long, long.
I've grown tired of feeling like I'm in this world all alone.
Only you, only you, baby I want you, only you will do.
Only you, only you, baby I want you, only you will do.
Baby I want you and only you will do.
