

# Ocean

## Cold

If the wind could bring the rain  
I would save it all for you  
Make an ocean to sail away  
And begin again They said, I could never change  
That it can't belong to you  
Then I watched you slip away  
In the ocean's arms I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave  
If a star could light the way  
That could take me back to you  
And the rain could wash away  
Everything I've done Only melody remains  
So I sing my song to you  
As I watched you slip away  
In the ocean's arms I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave Fallin' down a wave  
I will never get you back  
Like fallin' down a wave  
I will never get you back  
I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave I will never get you back  
Like fallin' down a wave  
Fallin' down a wave I will never get you back  
It's like fallin' down a wave  
Fallin' down a wave I will never get you back  
I will never get you back  
I will never get you back  
I will never get you back
