

Ocean

Cold

If the wind could bring the rain
I would save it all for you
Make an ocean to sail away
And begin again They said, I could never change
That it can't belong to you
Then I watched you slip away
In the ocean's arms I will never get you back
It's like fallin' down a wave
Fallin' down a wave I will never get you back
It's like fallin' down a wave
Fallin' down a wave
If a star could light the way
That could take me back to you
And the rain could wash away
Everything I've done Only melody remains
So I sing my song to you
As I watched you slip away
In the ocean's arms I will never get you back
It's like fallin' down a wave
Fallin' down a wave I will never get you back
It's like fallin' down a wave
Fallin' down a wave Fallin' down a wave
I will never get you back
Like fallin' down a wave
I will never get you back
I will never get you back
It's like fallin' down a wave
Fallin' down a wave I will never get you back
Like fallin' down a wave
Fallin' down a wave I will never get you back
It's like fallin' down a wave
Fallin' down a wave I will never get you back
I will never get you back
I will never get you back
I will never get you back
