

# Rainbow

Kesha

I used to live in the darkness  
Dress in black, act so heartless  
But now I see that colors are everything  
Got kaleidoscopes in my hairdo  
Got back the stars in my eyes, too  
Yeah, now I see the magic inside of me Yeah, maybe my head's fucked up  
But I'm falling right back in love with being alive  
Dreaming in light, light, lights  
This kitty cat lost her mind  
Been looking for a star-sent sign that I'll be alright  
Look to the skies  
I've found a rainbow, rainbow, baby  
Trust me, I know, life is scary  
But just put those colors on, girl  
Come and play along with me tonight I'd forgot how to daydream  
So consumed with the wrong things  
But in the dark, I realized this life is short  
And deep down, I'm still a child  
Playful eyes, wide and wild  
I can't lose hope, what's left of my heart's still made of gold And I know that I'm still fucked up  
But aren't we all, my love?  
Darling, our scars make us who we are, are  
So when the winds are howling strong  
And you think you can't go on, hold tight, sweetheart  
You'll find a rainbow, rainbow, baby  
Trust me, I know life is scary  
But just put those colors on, girl  
Come and play along with me tonight  
You gotta learn to let go, put the past behind you  
Trust me, I know, the ghosts will try to find you  
But just put those colors on, girl  
Come and paint the world with me tonight  
Night, night, night, night, night I found a rainbow, rainbow, baby  
Trust me, I know life is scary  
But just put those colors on, girl  
You gotta learn to let go, put the past behind you  
Trust me, I know, the ghosts will try to find you  
But just put those colors on, girl  
Come and paint the world with me tonight  
Oh, put those colors on, girl  
Come and paint the world with me tonight  
Come and paint the world with me tonight
