

# Curvy

## Dark

Curvy Woke up with my head okay  
To incredible worlds  
To the absence of shame  
You wanna come  
You wanna go  
You want it all  
You want it now  
I've seen your face before it must have been a dream (been a dream)  
I've seen your face before  
Your body draws me in  
Your eyes want danger  
Your body draws me in  
Your eyes want danger Must have been a dream (have been a dream)  
Must have been (have been a dream)  
Must have been a dream (been a dream)  
Must have been...  
Your body draws me in  
Your eyes want danger  
Your body draws me in  
Your eyes want danger Let's take a ride along the water, on the wayside  
Let's take a ride down by the railroad on the edge of existence  
Let's take a ride along the water, on the wayside
