

# Double Up

[Fox Stevenson](#)

Double up what we got 'cause we got to do it properly.  
I don't think I can do it all on my own this time.  
'Cause all we got when it stopped was a fist full of painful memories. We're gonna be fine...  
We're gonna be fine. Double up what we got 'cause we got to do it properly.  
I don't think I can do it all on my own this time.  
'Cause all we got when it stopped was a fist full of painful memories. We're gonna be fine...  
We're gonna be fine. Double up what we got 'cause we got to do it properly.  
I don't think I can do it all on my own this time.  
'Cause all we got when it stopped was a fist full of painful memories.  
We're gonna be fine...  
We're gonna be fine.
