

Baby Baby Baby

Endeverafter

Your lips they glisten cherry red
And I wanna taste it all
Your hips are shaking me to death
The way you shake it But don't stop now, c'mon honey
Tell me how, how do you want it?
Don't stop now 'cause I need it
Don't stop and take it all away Baby baby baby
C'mon and show me what you got
Baby baby baby
C'mon and show me what you got Don't stop, honey, right or wrong
And I'll drive you crazy, all night long
Your lips they glisten soaking wet
And I wanna take it all
Your sweet skin all over the bed
I wanna penetrate it But don't stop now, c'mon honey
Tell me how, how do you want it?
Don't stop now 'cause I need it
Don't stop and take it all away Baby baby baby
C'mon and show me what you got
Baby baby baby
C'mon and show me what you got Don't stop, honey, right or wrong
And I'll drive you crazy, all night long Tell me just what turns you on
What turns you on
What turns you on
Baby baby baby
C'mon and show me what you got
Baby baby baby
C'mon and show me what you got
Don't stop, honey, right or wrong
And I'll drive you crazy, all night long
Tell me just what turns you on
What turns you on
What turns you on
C'mon and take it all away
