## **Baby Baby Baby**

## **Endeverafter**

Your lips they glisten cherry red
And I wanna taste it all
Your hips are shaking me to death
The way you shake itBut don't stop now, c'mon honey
Tell me how, how do you want it?
Don't stop now 'cause I need it
Don't stop and take it all awayBaby baby baby
C'mon and show me what you got
Baby baby baby
C'mon and show me what you got
O'mon and show me what you gotDon't stop, honey, right or wrong
And I'll drive you crazy, all night long
Your lips they glisten soaking wet
And I wanna take it all

Your sweet skin all over the bed
I wanna penetrate itBut don't stop now, c'mon honey
Tell me how, how do you want it?
Don't stop now 'cause I need it

Don't stop and take it all awayBaby baby baby C'mon and show me what you got
Baby baby baby

C'mon and show me what you gotDon't stop, honey, right or wrong And I'll drive you crazy, all night longTell me just what turns you on

What turns you on
What turns you on
Baby baby baby
C'mon and show me what you got
Baby baby baby
C'mon and show me what you got
Don't stop, honey, right or wrong
And I'll drive you crazy, all night long
Tell me just what turns you on
What turns you on
What turns you on
