Back Then

Citizen Cope

Before the laws and the social orders Before the calls of our lieutenants arrived Before the rise of pop culture Before the guards at the bordersBefore the expectations

Led to last frustrations

Before the path to salvation was clouded By the deep depths of temptationBack then

> It was alright to pretend But all we really have is within

And we disguised expected

Back then

Love had a place to stay

It wasn't getting turned away

It took my whole life just to realize

This has to make a way to back then

Back then

Back then

Back thenWell holy sons, holy daughters, holy sisters, holy brothers

Holy skies, holy waters

For those who came before us

But on the way to work come before usBefore the expectations

Led to last frustrations

Before the path to salvation was clouded

By the deep depths of temptation

Back then

It was alright to pretend

But all we really have is within

And we disguised expected

Back then

Love had a place to stay

It wasn't getting turned away

It took my whole life just to realize

This has to make a way to back then

Back then

Back then

Back then

Back then
