

Daihaminkay (Live In St. Petersburg)

Fool's Garden

Daihaminkay
Daihaminko
I can't explain
Why is it so? My adrenaline
Is on a level so high
And when you touch
Me now I die My love
Shoot me away to the stars above I fly
I've swallowed
Too much in days gone by
But I won't swallow
Anymore I tried to find a light inside this hollow
Until you came
There was no one to follow
Daihaminkay
Daihaminko
What does it mean?
I do not know I do not care
On such a beautiful day
Daihaminkay
I hear you say Yes I am ready my love, I... Fly
I've swallowed
Too much in days gone by
But I won't swallow
Anymore I tried to find a light inside this hollow
Until you came
There was no one to follow
Until you came the sky was grey
And now you brighten up this hollow And I fly
I've swallowed
Too much in days gone by
But I won't swallow
Anymore I tried to find a light inside this hollow
Until you came
There was no one to follow We are ready for the real life
We are ready for the real life, baby
We are ready for the real life
We are ready for the real life, baby And I fly
You can call this world
And it will hear you
